Tina Adams, PE is a Civil/Structural Engineer and Project Manager specializing in the development and delivery of multi-discipline transportation and infrastructure projects. With over 14 years of experience, Ms. Adams is a recognized leader of project teams in delivering complex infrastructure projects from the initial programming phase through alternatives evaluation, permitting, public involvement, final design, bidding and construction. These projects range in construction value from \$1 million to \$20 million each. She brings a valuable blend of experience from both the public sector, as owner, and as a private sector consultant to her project leadership. She spent seven years with the Department of Land Use and Transportation at Washington County, Oregon where she served as civil engineer and project manager on major road and bridge transportation projects. After her Washington County tenure she worked as a project manager with David Evans and Associates, Inc. for seven years. At David Evans and Associates, Inc. Tina managed transportation and infrastructure projects for Counties, Cities, ODOT, Port of Portland and private industrial clients.

Tina has extensive experience with critical path method (CPM) project scheduling and monitoring project progress, with public involvement efforts, and with environmental regulations, permit requirements and planning conditions of approval. This experience contributes to efficient and timely project completion. She has experience working with a variety of public agencies including ODOT, the USACE, TriMet, Port of Portland and numerous cities and counties. She is familiar with public agency invoicing requirements and contracting procedures.

For the Moyano Leadership Group Ms. Adams serves clients as a project manager for public and private infrastructure projects. In this role she represents clients at public meetings and hearings, in front of city councils and county commissions and with regulatory agencies. She works with clients to clearly identify project needs, issues and concerns and assembles and leads multiple firm teams to ensure project success.

Some of Ms. Adams' notable projects include:

- Project Manager, Brookwood Avenue at Alexander Street Roundabout, for Washington County and City of Hillsboro, Oregon (Ongoing)
- Project Manager, 170th / 173rd Avenue, Baseline Road to Walker Road, for Washington County, Beaverton, Oregon (Ongoing)
- Project Manager, River Road, Rood Bridge Road to Davis Road, for Washington County, Hillsboro, Oregon (Ongoing)
- Project Manager, Brookwood Avenue, TV Highway to E. Main, for Washington County, Hillsboro, Oregon (Ongoing)
- Project Manager, Troutdale Reynolds Industrial Park Phase I Infrastructure Improvements, for Port of Portland, Troutdale, Oregon (Ongoing)
